RE: Sabre Inverter EOL

Dear UNIPOWER Partners,

In light of recent advances in the power electronics industry, UNIPOWER has taken the decision to discontinue some of our older products to make room in our line for the most cutting-edge technology possible. To this end, the Sabre line of inverters will be discontinued as of 12/20/2017. We are offering our customers a last time buy on the Sabre series of inverters with orders placed by the EOL date. As a suitable future replacement for the Sabre inverters please refer to the SLI 15 24/48 (data sheets attached).

If you have any questions regarding the discontinuation of the line, please do not hesitate to contact me at: 954-905-1097 or email me at: john.ely@unipowerco.com. UNIPOWER has many new products in the works and I look forward to writing again soon to discuss our latest innovations with you.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'John Ely'.
