RE: SLI 50 Last Time Buy

Dear UNIPOWER Partners,

In response to our earlier announcement of the discontinuation of the SLI 50 (7/2017), we were able to procure a limited supply of necessary components to build a last run of SLI 50 inverters. With that advancement, we are offering our customers a last time buy of the product. Orders for the SLI 50s must be received by 10/21/2017. Please remember that the quantities are limited. As a suitable future replacement for the SLI 50 inverters please refer to the SLI 15 24/48 (data sheets attached).

If you have any questions regarding this last time buy or discontinuation of the line, please do not hesitate to contact me at: 954-905-1097 or email me at: john.ely@unipowerco.com. UNIPOWER has many new products in the works and I look forward to writing again soon to discuss our latest innovations with you.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'John Ely', is positioned above the typed name.

John Ely
